LCMS CONFIRMATION

DTPM TOXICOLOGY

LCMS INSTRUMENTATION BUILT FOR RELIABILITY AND ACCURACY

DTPM will provide you with top of the line confirmation equipment and ensure you have cutting edge technology in your confirmation lab.

- High Sensitivity
- Automated Data Acquisition
- Reliable and Easy to Use
- High Performance and Productivity

With our Cost-Per-Sample program, all the following and more are included in your agreement:

- LCMS instrumentation, installation, and service laboratory design and workflow development
- Laboratory Information System (LIS) software and full validations
- Parts, consumables, chemicals, and supplies
- Installation, training, and method development
- Unmatched service and maintenance
- Customizable test menus

NO UPFRONT COSTS

All DTPM programs provide the advantage of avoiding significant capital outlay for new equipment while maintaining the advantage of acquiring the latest analyzer technology. DTPM even offers Cost-Per-Sample agreements toward equipment ownership.

Some restrictions may apply. Contact your sales representative to see if you qualify.

THE DTPM DIFFERENCE IN SERVICE

EQUIPMENT PURCHASE OPTIONS

For labs who prefer ownership of equipment, DTPM will prepare a custom agreement to meet their needs.

ON-SITE LAB STAFF TRAINING & SUPPORT

DTPM provides training of instrument operation and methodology for all staff, as well as ongoing support. Proper training and strict operation protocols are vital to the success of your drug screening service.

COMPREHENSIVE LABORATORY MANAGEMENT

DTPM provides a comprehensive laboratory management program that will assist in managing and servicing existing lab equipment with a focus of making your operation more efficient.

RECRUITING AND STAFFING ASSISTANCE

DTPM can source laboratory directors and assist with finding the right staff specific to your needs.
